

The FORCED soundtrack was an absolute blast to compose. It proved to be quite a challenge to find the style that would fit the game, but once we had that, the rest was simply loads of fun.

I would like to thank you for listening to the music outside of its context. Hope you like what you hear!

Thanks to the lovely people at Beta Dwarf - you guys are amazing!

Finally, this soundtrack is dedicated to Emma, as is everything I ever create.

DLC verdict: Get it in the Deluxe Edition bundle

Comment:

There are plenty of songs here, some better than others, but no really bad ones. However, nothing really sticks out for me. As a whole it's a nice addition to my OST library but for me it is more about supporting the devs than anything else. If you loved the music in the game get this DLC on a sale to support the devs ... but the better option is the Deluxe Edition bundle/upgrade because that should have this soundtrack already.
